ST. ANTON-004

From: €29,500/Week

Contemporaray chalet with indoor pool in St. Anton

12 Guests • **6** Bedrooms • **465** m² / **5005** ft

Spread over four floors and some 500 square meters, this chalet spacious and sophisticated. The property features six large en-suite bedrooms located on the ground and first floors, some with private balconies. Stylishly furnished, each room is fully wired for sound and vision with flat screen plasma TVs, top of the range Sonos sound systems and desk space for those wanting to use a laptop. The modern en-suite bathrooms feature bathtubs with Cowshed bath products. Take the lift to the top floor, home to the open-plan living room and dining area which brings together old and new - Austrian sublime meets 21st century wine wall. A large balcony overlooks the village with a statue of Artemis herself keeping watch over the resort. Gorgeous designer sofas, stunning works of art, and an open log fire define the upstairs living area, which is the perfect place to relax with a glass of champagne before dinner.

The wellness area on the lower ground floor is a great feature and a fabulous highlight of the chalet. It features an 8m indoor swimming pool, wet room, sauna, steam room and an indoor/outdoor hot tub ideal for easing aching limbs after a day on the slopes. There is also a massage room where you can indulge in a full menu of treatments including massages or facials. Also on the lower ground floor is the private 12-seater cinema. Watch big sporting moments and feature films from the comfort of its retro red velvet chairs with some delicious popcorn. During the day, the driver service will whisk you to the slopes and back in style with 4x4 vehicles.
